HELP SHAPE THE NEXT CHAPTER OF MONTROSE

An invitation from Montrose Township Group

A Different Kind of Community Conversation

Montrose is reviewing its Community Plan. This is not a Council document. It belongs to the Montrose community, and it is written by the people who live, work, and gather here.

Every few years we ask: what do we value? What do we want to improve? Where are we heading? This time, we are asking something more. We are asking what kind of place Montrose could become, for the people here now and for those who will call it home long after us.

The plan we create together will shape how community groups set priorities, how we apply for funding, and how we make the case to funding partners for investment in our town. The stronger the voices behind it, the stronger the plan.

It's 2040.

Montrose has become the kind of place everyone hoped it would be.
You are walking through town. What do you notice?
What do you think we did to make it happen?

The questions that shape the plan

What makes Montrose a great place to live, work or play?	What's missing for you or someone you care about?	What's one thing you would do to make Montrose better if you could?

What if the future isn't something we wait for?
What if it's something we create together?
